CARDS OF THANKS over five lines charged for at the rate of 10 cents per line. Obituaries charged for at the rate of 5 cents per line. MONEY IN ADVANCE.

A GREAT OFFER.

Farm Journal From Now to December, 1903, Nearly Five Years.

By special arrangement made with the publishers of the Farm Journal we are enabled to offer that paper to every subscriber who pays for the BRECKENRIDGE News one year ahead, for only \$1, both papers for the price of one only; our paper one year and the Farm Journal from now to December, 1903, nearly five years. The Farm Journal is an old established paper, enjoying great popularity, one of the best and most useful farm papers published.

This offer should be accepted without delay.

Let the good road revival continue.

GOEBEL started in with Stone, but he came away with the whole quarry.

CAPT. STONE is one man who does not believe there is honor among thieves.

Good roads are more substantial promoters of prosperity than party platforms.

BRECKENRIDGE county people will find the farmers' institutes more profitable than political conventions.

Of the two, Judas Iscariot was a better man than Goebel, for Judas hung himself after betraying his victim.

If farmers would study the science of agriculture as faithfully as they study politics they would be the most prosperous people on earth.

GOEBEL's mendacious influence over the convention would indicate that he had taken lessons from Elder Hicks, the Hancock county hypnotist.

THE poorer the people realize that the politicians care no more for them than they do for the Senegambian savages the better it will be for the country.

WHEN the Democracy of Kentucky surrendered to Bill Haldeman and the Courier-Journal Bryanism received its death blow in the "blue glass state."

It was Jim Todd, of Owenton, who said: "A good many sprouting politicians will be nipped in the bud by the Goebel frost before this convention is over." Gus Richardson will tell you that Todd's prediction came true.

Ed Kelley, of Hawesville, placed Jess Gonnell in nomination at the Democratic convention. In his speech Ed said: "The scent of penny-rite exudes from every pore of my body." A man standing near said: "He's wrong. It's the odor of mint juleps he refers to."

THE INSTITUTE.

THE Farmers Institute that will be held in this city next month will be one of the most profitable and interesting meetings of the kind that has ever been held in this state.

Besides General John B. Castleman there will be other eminent breeders and farmers from various portions of the state present to take part in the proceedings.

A meeting of citizens and business men of Cloverport will be called to plan to entertain those who will attend.

Every effort will be made to get a large crowd.

The railroad officials will make arrangements to provide cheap transportation from all points on the road.

Every farmer in this section, no matter what his state or county, should be present as questions will be discussed that will affect his prosperity and will be of vital moment to all.

A cordial invitation is extended. Get in the chariot of progress. Listen to the music of enterprise. Be proud that you are a farmer. Consider well the fact that even a poor farmer who makes a living is smarter than the poor lawyer or doctor who has to fight hard to keep from starving.

Study your interests. Listen to the wisdom and experience of men who make a success tilling the soil.

Attend the institute. It will pay you and you will be treated well.

Having no celebration at home our people will be attracted to various points to celebrate the grand and glorious fourth.

Alta St. Clair gave a birthday party her 9th anniversary to quite a number of her little friends last week which was highly enjoyed by the little folks.

As long as bar-room bums and irresponsible men supervise the working of our roads the same lamentable state of affairs that now exists will continue.

Last year the road tax was expended on the best parts of our roads, the same thing is being done again this year while the worst parts of our roads remain veritable quiches.

The people of this state should see to it that men are sent to the legislature this year who have some ideas of the needs of our public roads and who will work to secure proper enactment to have them worked.

Somebody ought to be responsible for the working of the hands on our public roads. It is a well known fact that the majority of the road overseers instead of putting in six days work with his hands do not put as much as one day good straight time during the year.

The Farm Journal is cream, not skim-milk, and just the paper for the man who keeps cows. We give it for the balance of 1899, and all of 1900, 1901, 1902 and 1903, nearly five years to every subscriber to the Breckenridge News who will pay a year ahead. Watch these items for the date.

A lady, not a hundred miles from here, was heard to remark, not long since, that on starting out with a paper for a good purpose she not only received refusals but actual insults and acts of contempt from "gentlemen." Now these "Brethren" and others, who are in the habit of speaking snappingly to church and other charitable committees should stop and think how they would like the same treatment were they placed in like positions and have the politeness to say "no" kindly when refusal is necessary as the church or charity "organ" as they are called, have anything but a pleasant position take it at best.

Say you frequently see advertised the Dewey hat, the Dewey shirt, etc., etc. Why don't some one manufacture an implement of some kind and call it the Goebel machine. It would work.

News papers as well as others get mixed up and crossed over in politics sometimes. For instance the Courier Journal is leaning right smartly for "Boss" Goebel, while it used to be so hard down on his election law, and the Dispatch that praised him and his law vociferously in the start, is now hard down on brother Billy. For my part don't give me any Goebel.

T. E. Coniff seemed to think that probably some one might put the wrong construction on the item in my last letter regarding his connection with it. I told him it was simply colored up a little in order to make an item for the News, and as far as its reading like he was for Goebel? that no one would think that for every one of his acquaintance knows him to be a republican and there are scarcely any of that party that ever vote the democratic ticket.

East Guston all last week resembled a railroad round house, for three sets of threshing machine outfits were stationed there at the shop undergoing a general overhauling, preparatory for work this week. Will Smith takes his "rig" to Wm. Ditto's on the Ohio. Eliza Smith, Jr., takes his to Guston, while Mr. Jim B. Smith starts his at this place and will do the home work. The Smiths are natural machinists, and a farmer is lucky indeed to get one to do his work, for if anything gets out of repair, either one of them is a genius and can fix it.
